REQUEST TO REMOVE  
PRESSURE REGULATOR  
AND RELEASE

I, \_\_\_\_\_, property owner of \_\_\_\_\_,  
request that the pressure regulator be removed from the District's meter pit.

I understand that pressure in the water line fluctuates, and that the purpose of the pressure regulator is to keep water pressures at constant levels.

I understand the potential problems that this action could cause and I hereby assume any and all liability which could result from this request. I hereby release the District from any damages to persons or property which could have been prevented if the pressure regulator had remained.

I also understand that District policy prohibits replacement of the PRV in the District meter pit. I agree to notify the subsequent owner of this tap about this agreement.
